

WHAT IS COORDINATED ENTRY (CE)?

The primary goal of a Coordinated Entry process is to provide an accessible system to people experiencing homelessness and quickly connect them to appropriate housing or other services.

THE LICH CE TEAM

CE Assessment Specialists- respond to the helpline that is for people at risk and experiencing homelessness to call to navigate resources.

Case Management- works with people in shelter for the greatest period of time and provide assistance with necessary resources and housing supports

Street Outreach- work with folks living unsheltered for the greatest periods of time to connect with necessary resources and housing supports

Supervisor of Direct Support and Street Outreach Supervisor- provides supervision, support, and guidance to direct care staff, collaborates with shelter providers and permanent housing providers.

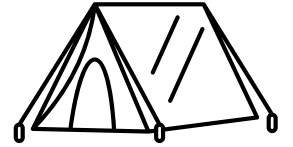

Access

1

Helpline

Street Outreach

Assessment

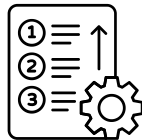

2

Long Island has a localized CE Assessment tool that was designed to gather information on households experiencing homelessness, related to vulnerabilities and barriers to exiting homelessness.

Prioritization

3

Those with the longest lengths of time experiencing homelessness and the greatest barriers to exiting homelessness (identified through assessments), receive priority to all housing resources funded through HUD CoC and ESG programs.

Referral
